partha.shah29@gmail.com · <https://www.linkedin.com/in/parthashah> · <https://parthshah.site/>

Highly motivated, decisive and results-oriented engineer with 10 years of experience, working in the areas of Architecture designing, Management and Programming with a breadth of technologies.

EXPERIENCE

MAY 2018 – PRESENT

SR. DEVELOPER / SCRUM MASTER, ATHENAHEALTH

- Responsible for spearheading teams to develop and own microservice following the company's Agile SDLC model.
- Assisted with definition of product requirements and creates high-level architectural specifications, ensuring feasibility and functionality with existing platforms.
- Utilized Agile Scrum practices to help the team increase their velocity.
- Collaborated with members of the Product, Business and Engineering Teams to develop and maintain Product Backlogs.

FEB 2016 – MAY 2018

SR. DEVELOPER, CISCO (ABOVE SOLUTIONS)

- Own & contribute microservice components and delivered many critical user stories.
- Participated in architecture designing and while improving stability of product.
- Ensured the release of premium quality application that provide intuitive user experience.
- Created automated diagnosis, testing and debugging modules.

DEC 2010 – FEB 2016

FULLSTACK DEVELOPER, STARTUPS

TALVIEW

- Led the development for the startup working in interview domain.
- Integrated platform with global leaders from different industries for candidate assessments with partners like Application Tracking Systems ([IBM](#), [SAP](#) & [SmartRecruiters](#)), Code Evaluation ([HackerEarth](#), [Potknox](#)), Background verification ([AuthBridge](#)), for global expansion of project.
- Focused on Timely and efficient communication with clients and partners.

FLUVINA

- Built infrastructure to handle millions of transaction based on various communication mediums [Telephony, SMS, Emails].
- Implemented methodologies and procedures for carrying out effective development.
- Assisted with git branching model and release management with deployment strategy.
- Built highly scalable architecture, which can spins up/down hundreds of servers on the fly attached with clustered RabbitMQ architecture.

MAYAVI

- Led innovative solution for broking firms (majorly ICICI Bank) to handle clients with automated triggers from NSE (National Stock Exchange) and BSE (Bombay Stock Exchange).
- Built infrastructure for **mRemote (IOT)**, project for handling AC Units from mobile application with clustered redis and highly scalable socket connections.
- Prepared problem analysis and built a unique 2 factors authentication application, with email and telephony to help ICICI Bank with faster PIN and password delivery.
-

EDUCATION

2009 - 2011

M.S.C. (INFORMATION TECHNOLOGY), DA-IICT

GPA: 7.83

2006 – 2009

B.C.A. (COMPUTER APPLICATION), GUJARAT UNIVERSITY

PERCENTAGE: 78.33%

TECHNOLOGIES

- Languages: Node.js, Python, PHP
- Databases: Elasticsearch, Postgres, MySQL, MongoDB, Redis
- Queues: Kafka, Kinesis, SQS, SNS, beanstalk, RabbitMQ
- Frameworks: Express, Flask, Laravel, React
- Testing: Jest
- Tools: Docker, git, Jenkins, AWS

ADDITIONAL EXPERIENCE AND AWARDS

- Got multiple shout-outs (Appreciations) & awards for work I had done for AthenaHealth & Cisco, also awarded with scrum lead position in span of 6 month working with multiple teams.
- Created **fade.li**, a fun product as part time fun activity, which is afterwards supported by my firm and go global with covering in [nextBigWhat](#), [HackersNews](#) and more than 100 blogs all over the world.
- Taken part in multiple Hack-a-thons, won multiple awards including blackberry limited edition.
- Contributed telephony giant Plivo as open source platform.
